

Qonsult Group of International Experts with Worldwide Reach

Qonsult is an international partnership of independent consulting companies that works collaboratively to ensure the delivery of a comprehensive range of services. Qonsult improves organisational performance through an integrated approach in work with our clients.

Qonsult provides expert tools and resources in strategic management, organisational change, financial services, leadership development, conflict management, and negotiation skills. Key consulting areas are:

> **Strategic Positioning**

Qonsult focuses on facilitating the process of formulating and implementing a sustainable strategy. In this process Qonsult emphasises building understanding, ownership and alignment for the strategy across the entire organisation, both nationally and internationally.

> **Process Optimization & Redesign**

In re-/organisation projects Qonsult focusses on three areas of expertise: the process design, the organisational structure, and the implementation. By the approach of business process reengineering, all three areas of expertise are systematically connected.

> **Financial Management**

Qonsult supports the corporate strategy in financial accounting and reporting; by the identification of options within the framework of international financial standards; and the definition of corporate accounting and reporting guidelines in line with corporate objectives.

> **Negotiation and Conflict Management**

Through consultation, facilitation, mediation, and training, Qonsult helps clients gain the best possible return on each negotiation, while improving critical business relationships to ensure long-term results.

Qonsult understands the work of consulting as the client's investment in the sustained improvement of their performance and financial results. In general, the proved value of the projects exceeds the cost by a multiple.
